Children's Hospital

Caring for Life since last 6 Years

6th Anniversary Message from the MD's desk

It is indeed a great privilege for me and my team of distinguished Pediatricians, pediatric surgeons and Neonatologists to introduce NEO BBC Children's Hospitals to you all. Started in 2010 with more than one and half decades of experience in hospital management and located in Vidyanagar, Hyderabad. Now we have crossed six years and growing strong. Our service motto continues to be 'corporate care within the common man's reach'. We have already earned a reputation of bringing world class neonatal and pediatric intensive care with medical excellence to Hyderabad.

Since our inception, we have been striving single mindedly and whole heartedly to achieve high standards of medical and intensive care to the children and newborns. Our team of Doctors and childcare workers compete with themselves everyday to remain matchless in our service and committed to our mission of alleviating the suffering of kids, thereby enabling them to live a long, fruitful and complete life.

I take this opportunity to thank our professional colleagues for their commitment and unstinted support. I thank all the parents who have shown confidence, faith and trust on us, which has enabled us to offer our services for the last six years to thousands of kids with a very high success rate.

We assure you of humane, high quality and affordable care.

Sincerely yours

In the service of children

Dr. Rangaiah Manchukonda
Managing Director

In **6** YEARS

We treated

18562
Out patients

15000
Intensive Care Children

2152
Pediatric Surgical cases

2763
General Pediatric cases

42
Caesareans-High Risk Pregnancies

4912
Neonates

VISION

To firmly establish a sterling reputation for providing affordable, safe and effective healthcare solutions to combat children's most dreaded diseases.

MISSION

To provide excellent neonatal and pediatric care in a clean environment with compassionate medical professionals and make it accessible and affordable to all.

Core Values:

- Care
- Transparency
- Integrity
- Excellence

WITHIN YOUR REACH

Affordability, Availability and Accessibility

Affordability:

The Hospital offers Air conditioned special rooms which are cozy and comfortable with TV, Refrigerator and telephone for convenience of the patients and their attendants at an affordable cost.

Availability:

- 24x7 emergency services
- 24x7 critical care & transport facilities
- Transport Incubator
- Complete Laboratory and diagnostic services

Accessibility:

- Strategic location in the heart of Hyderabad City enables easy access by any mode of transport
- Located within easy access to Secunderabad and Hyderabad cities
- Well connected with MMTS & roads
- Only 30 minutes drive from the main places

Our Team

We are an interdisciplinary team that addresses the medical, nutritional, neurological, developmental and psycho social needs of patients in a single location. Our staff has extensive experience in caring for high-risk neonates and premature infants.

Our team includes:

- Experienced Neonatologist
- Senior Pediatric Consultants
- Senior Pediatric Surgeons
- Pediatric Neurologist
- Pediatric Cardiologist
- Pediatric Pulmonologist
- Pediatric Nutrition specialist

PEDIATRIC INTENSIVE CARE SERVICES

Team

The Pediatric ICU is a 10-bedded tertiary care unit which provides tertiary level care to seriously sick children. Facilities available include invasive monitoring and mechanical ventilation. The patients treated here include critically ill children, with diseases such as severe asthma, serious infections (malaria, TB, meningitis, Dengue fever etc.) and head injuries.

A trained, dedicated team is available to retrieve critically ill children from referral hospitals. The ICU admits on an average 40 children monthly and is run by a Pediatric Intensivist, who has experience in treating critically ill children.

There were 463 admissions from 01.03.2010 till date.

Performance

The spectrum of diseases dealt includes:
